

# Cyber Maturity Assessment

Cyber Security

## What is a Cyber Maturity Assessment for?

Its purpose is to identify gaps and weaknesses in cyber security posture, determine areas for improvement and develop a roadmap to enhance your establishment's overall cyber resilience.

## What's covered: a typical Cyber Maturity Assessment involves the following:

The team	The assessment	The outcomes														
<table border="0"> <tr><td>CEO</td><td>HR</td></tr> <tr><td>C-Suite</td><td>Operations and IT teams</td></tr> <tr><td>Exec team</td><td>Incident Management</td></tr> <tr><td>Directors</td><td>Business Continuity teams</td></tr> <tr><td>Legal</td><td>Public Relations</td></tr> <tr><td>CISO</td><td>Corporate Comms</td></tr> <tr><td>Technology &amp; Cyber team</td><td></td></tr> </table>	CEO	HR	C-Suite	Operations and IT teams	Exec team	Incident Management	Directors	Business Continuity teams	Legal	Public Relations	CISO	Corporate Comms	Technology & Cyber team		<p><b>Identify</b> current gaps in compliance and risk management of information assets</p> <p><b>Assess</b> the scale of cyber related vulnerabilities</p> <p><b>Evaluate</b> the level of cyber maturity on a site-by-site basis or company level</p> <p><b>Prioritise</b> key areas for a management action plan</p> <p><b>Align and map</b> cyber practices against industry standards</p> <p><b>Compare</b> with industry peers using industry insights</p>	<p><b>Detailed report</b> outlining current maturity level against industry sector standards</p> <p><b>Identify</b> industry best practice and provide comparator information against competitors</p> <p><b>Recognise</b> the right priorities and actions needed to improve your cyber security maturity</p> <p><b>Key tactical and strategic</b> recommendations</p> <p><b>Maturity of capabilities</b> for identity, protect, detect and respond</p>
CEO	HR															
C-Suite	Operations and IT teams															
Exec team	Incident Management															
Directors	Business Continuity teams															
Legal	Public Relations															
CISO	Corporate Comms															
Technology & Cyber team																

## The Benefits

Identify clear, practical, strategic measures to protect your business data.

Identify any gaps in your current security programme and objectively prioritise their closure.

Benchmark your security processes and performance.

Working within the CIS Critical Controls framework, we will review and assess your current policies, technical controls and general governance standards.

By conducting a Cyber Maturity Assessment, you can gain valuable insights into your cyber security capabilities, prioritise investments in risk mitigation measures and establish a foundation for continuous improvement in cyber security practices.
