

# Meta Quest 3S for business audiences

**Expand your world of work and learning with Meta Quest 3S, a mixed reality headset that means you can launch virtual workplaces and immersive learning simulations.**

Learn from anywhere, through realistic, risk-free simulations. Meet in an immersive virtual workplace and feel like you're truly together. Then collaborate, create and share in incredible new ways. All made possible by our latest headset.

## KEY BENEFITS

### 1 A perfect workspace is yours to create.

Infuse your working environments with fully immersive experiences centered on your physical environment, opening up a world of opportunities for how we make, meet and learn. Crystal-clear, full-color passthrough keeps you grounded in the real world while working on a project. Tune out distractions and dive deeper into the task at hand or blend in the real world, with mixed reality just a button-tap away.

### 2 Transform your workplace.

Get ready to create something incredible. Using mixed reality apps like Gravity Sketch your teams can collaborate directly on room-scale 3D models, see the impact of changes in real time and get a truer sense of how their designs will interact with the world. All this means concepts can become final products faster, saving you time and driving ROI.

### 3 Super power. Super price.

Stunning mixed reality is now more affordable than ever. Meta Quest 3S offers incredible possibilities to collaborate, create and learn at an incredible price, so now the whole team can experience its power. A three-year Meta Quest limited warranty is also included when purchased within a B2B channel.

### 4 Magic at scale.

A Meta Quest for Business subscription makes it easy to scale the power of Quest across your organization, letting you easily manage users, devices and mixed reality experiences securely. You'll enjoy streamlined deployment across Quest, as well as managed app store access and Shared Mode, for simple device-sharing amongst multiple people.

## HARDWARE

**Meta Quest 3S**  
128GB/256GB

Expand your world of work and learning with Meta Quest 3S, and show the endless possibilities of mixed reality. Learn from anywhere, through realistic, risk-free simulations that build skills four times faster than in the training center. Meet in an immersive virtual workplace and feel like you're truly there together, ready to collaborate, create and share in incredible new ways. And, with a Quest for Business subscription, you can scale the power of Quest across your organization, easily and securely managing users, devices and experiences. Get the Quest experience at an incredible price with Quest 3S.

## KEY ACCESSORIES

**Meta Quest Elite Strap with Battery**

Work and learn in comfort and get up to 2 hours additional time\* with this adjustable ergonomic head strap that features a built-in lithium-ion battery pack. Charge your Meta Quest headset and head strap battery simultaneously with a single charging cable. This premium Meta accessory easily adjusts to fit most head sizes with the easy-to-use dial while distributing headset weight for a more comfortable fit.

**Meta Quest Compact Charging Dock**

Stay powered and ready to work in mixed reality with this compact charger, featuring drop-in wireless controller charging. Keep your Meta Quest headset and Touch Plus Controllers organized while they charge back up. Includes an extended headset charging cable and rechargeable lithium-ion batteries for your controllers.

**Carrying Case**  
Compact Carrying Case also available

Take your headset and accessories on the go with style and protection. This case is designed to fit your headset, Touch Plus Controllers, charging cable, adapter, headstrap (standard or Elite) and Active Straps. The exterior shell features custom durable felt, and the inner compartments keep your gear organized and secure.

**Meta Quest 3S Breathable Facial Interface**

Get more into your favorite experiences with a facial interface that increases ventilation while you move. The design distributes weight for a comfortable fit during active mixed reality and VR sessions. When you're done working, you can easily wipe sweat off the silicone, whether you're in a solo session or sharing your headset with others.

**Link Cable**

Harness the power of the PC with this premium fiber optic cable. This translates to higher data speeds and higher res graphics.

\*Battery life may vary based on headset usage, configurations and settings.
